1. ABOUT THE REPORT

Our hotel undertakes to fulfill the obligations of the Turkey Sustainable Tourism Program regarding sustainability and to continuously improve its sustainable management system in order to increase its sustainability performance. Due to the situation of the sector, environmental, social, technological, economic and cultural risks, changes and updates stemming from the legislation, our management system is constantly reviewed, and if necessary, the system and policies are updated.

Our “sustainability policies” are our company's commitment to this issue. From this point of view, all our orientations will be in this intention and direction. Our aim is to transform the sustainability principle into a "business manner" in the basic areas of our hotel and to bring it into the corporate memory. Turning our efforts into success and gaining continuity will only be possible if we act together with our employees, guests, business partners, suppliers, solution partners, and all our interlocutors in our immediate environment and make them a partnership that we will strengthen day by day.

It is very valuable to raise the awareness of the personnel, who are considered as an integral part of the sustainability approach, to provide opportunities for them to be involved in the process and to contribute to development opportunities. In this context, in our annual training plans and orientations; Social rights, supporting local employment, protecting natural life, supporting wildlife, historical touristic places of the immediate environment, cultural richness, ecological diversity, energy and water saving, environmental activities-recycling system, orientation to local resources, etc. Efforts are made to disseminate the sustainability philosophy. The main objective is to provide strategic support to all companies and departments for the improvement of business results through human resources management in line with business strategies, and to contribute to creating value for all stakeholders by creating and promoting a high performance culture. In addition to all these, it is aimed to increase awareness in every sense with orientation training and professional level trainings determined according to annual training needs.

Sustainability studies are under the coordination of Hotel Management, and the evaluation of our activities and performance in this field is always open to the expectations and opinions of our stakeholders.

3. SUSTAINABILITY ACT

The sustainability team in our facility ensures

the implementation of certain policies by all employees on the issues of quality, economy, management, environment, culture, human rights, health and safety of the sustainable management system, setting targets and monitoring whether the targets are achieved or not, and ensures that the business management processes are continuously improved.

If the determined targets are achieved, new targets are determined. If they are not achieved, our targets, policies and practices are reviewed. In this way, we strive to ensure continuous improvement.

4. SUSTAINABLE MANAGEMENT SYSTEM

All management processes of our hotel constitute the basic framework of a Sustainability Management System (SYS) that can be developed and reveal its policies.

The basis of our management system is based on risk analysis. Risk analysis is carried out under the headings of environment, natural disasters, society, culture, economy, quality, human rights, health and safety. New titles can be added if necessary.

After analyzing the risks, we also have a crisis management policy and system that determines what to do in case of realization of risks.

Sustainable management system includes the implementation of certain policies by all employees on quality, economy, management, environment, culture, human rights, health and safety, the setting of targets and the continuous improvement of business management processes by monitoring whether the targets are achieved or not.

If the determined targets are achieved, new targets are determined. If not achieved, our goals, policies and practices are reviewed. In this way, we strive to ensure continuous improvement.

Due to the situation of the sector, environmental, social, technological, economic and cultural risks, changes and updates stemming from the legislation, our management system is constantly reviewed, and if necessary, the system and policies are updated.

Stakeholders and communication

Our hotel gives accurate information to all segments of the promotion. Always uses real visual material in promotion. Our hotel has a transparent and realistic structure in terms of its products and services on its website, social media accounts and other printed and written promotion channels and marketing communications. At the same time, it shares its actions and transactions regarding policy and sustainability with its employees and customers in an open and transparent manner. To do this, our hotel's website is used. Periodic reports on sustainability performance are published on our website. These reports are prepared in appropriate periods.

Regarding our sustainability performance, policies and practices at our hotel, we receive from our customers, public institutions, municipalities, employees, local people and all other relevant stakeholders.

There is a system that aims to receive feedback from individuals and institutions. Through this system, we receive feedback from both our staff and customers.

Our system is designed to enable and encourage our customers and staff to provide feedback quickly, simply and effectively.

This system includes survey applications for guests, regular monitoring of social media accounts, e-mail, messaging services and other communication channels for employees, and e-mail communication for all other stakeholders and their regular follow-up.

Customer

experience At our hotel, customer satisfaction is given importance. Customer satisfaction includes feedback from the system described above regarding sustainability. The results obtained are analyzed. Negative feedback and responses to it are recorded and necessary action is taken.

Accessibility

Our hotel is committed to providing accessible tourism services for everyone within its means, and informs its customers and stakeholders about the level of accessibility clearly and accurately through its website.

Our hotel is also committed to full compliance with the legal regulations regarding accessibility and to continuous improvement in this regard.

We strive to make continuous improvements not only for the physically handicapped, but also for our guests who cannot participate in tourism activities due to disabilities such as vision and hearing.

Our hotel regularly maintains and repairs accessibility arrangements and infrastructure, and provides improvements if necessary. In addition, we regularly inform our employees about accessibility.

Buy

Our purchasing policy includes policies for local, environmentally friendly, fair trade and efficient purchasing.

Our hotel monitors our goods and services resources. We hold regular meetings with our suppliers. We check their sustainability certificates, information and documents.

Local procurement: Our hotel gives priority to local suppliers when purchasing goods and services, provided that they are of good quality and reasonably priced. For this reason, it regularly audits its suppliers, updates the supplier list and informs its suppliers. The ratio of goods and services received from the people of the region is measured.

While purchasing goods and services, our hotel also gives priority to fair trade suppliers for imported products, provided that they are of good quality and reasonably

priced. **Environmentally friendly purchasing:** Our hotel follows an environmentally friendly policy in purchasing, giving importance to efficient purchasing, energy saving and water saving in order to reduce food and solid waste.

Our hotel gives priority to environmentally friendly products (products with environmental labels) in its purchases. If there are no environmentally labeled products in the product group to be purchased, it selects the relevant products, production and all other processes from suppliers and manufacturers that do not harm the environment.

In this context, our hotel prioritizes the selection of suppliers with sustainability certificates while making its purchases. Sample certificates that can be sought from suppliers are ISO14001, ISO50001, ISO14064, ISO20400.

Environmentally certified (FSC, MSC, AB-EcoLabel, etc.) or traceable products are preferred for wood, fish, paper and other foods.

Threatened species and species that are forbidden to be sold (fish, trees, plants, game animals, etc.) are not taken or used in our hotel. The ratio of our purchases

from environmentally certified, local producers and suppliers and fair trade suppliers to total purchases is measured.

Our hotel has targets for environmentally certified, local and fair trade procurement. In this context, we aim and pay attention to increase the ratio and number of local and fair trade suppliers in our purchases.

Efficient purchasing: Our purchasing policy favors reusable, returnable and recycled goods.

Our hotel also gives priority to bulk purchase and bulk product purchase. In this way, fewer shipments are made to our hotel and less greenhouse gas emissions are produced.

The absence of unnecessary and excessive plastic, nylon, paper, glass, wooden packaging in the products arriving at our hotel is our main priority and preference.

Disposable products and unnecessary packaging (especially plastic) are avoided in the purchase of consumables and amenities. The purchase and use of consumables and disposables is monitored and managed.

Energy and environment

Energy saving: Our hotel has an energy saving policy. The policy includes regular measurement, monitoring and reduction of energy consumption.

The total energy used in our hotel is measured by type.

Our hotel identifies activities with high energy consumption, plans and implements measures for them (thermal insulation systems, devices with energy consumption class are preferred by those with low consumption).

use of led bulbs instead of high energy consumption lighting such as incandescent, etc.). In addition, our hotel uses energy-saving equipment.

Our hotel informs and trains its employees and stakeholders on energy saving.

Water management and wastewater

Water saving measures are implemented in our hotel. All shower heads have a parlor. The water risk situation has been determined in the area where our hotel is located. For this, the Water Risk Atlas prepared by the World Resources Institute is used. The link to the relevant website is located here. _____

In the risk analysis, the water risk was also evaluated and a water management plan was made. This plan includes targets and reports for measuring and monitoring water use and reducing water consumption.

Due to the water use activities of our hotel, the creatures living in waters such as sea and lake are not harmed.

Nevertheless, the possibility of harming these creatures has been evaluated in the risk analysis and necessary precautions have been taken.

Our hotel complies with all legal requirements and regulations in the use of water.

The water comes from a legal and sustainable source. Our water comes from mains water.

We measure our water consumption. The total water used per guest or overnight is calculated and reported.

Water-saving equipment is used in our hotel. Our hotel uses good practices such as changing sheets and towels upon guest request.

Our hotel informs and guides its employees and stakeholders about water saving.

Our hotel mobilizes all its resources so that its waste water does not harm the environment.

The regulations determined by the local government are followed for the disposal of waste water. Legal requirements are complied with in this regard.

Food waste and solid

waste Our hotel has a Solid Waste Management Plan. The plan includes regular measurement and monitoring of waste generation, waste reduction, reuse, recycling and waste disposal.

Solid wastes are separated according to their types such as food, recyclable, toxic/hazardous and organic, while recycling and reuse conditions are taken into consideration.

Our hotel informs and guides its employees and stakeholders on waste management regularly with various visual and communication materials.

Solid wastes separated according to their types in our hotel are collected by authorized and licensed companies.

Solid waste, including food waste, is measured by type. In our hotel, the amount of solid waste per guest or overnight is calculated and reported.

Our hotel has also identified activities and risk areas where solid waste generation is high. It plans and implements corrective measures to reduce food waste and waste.

It is aimed that solid waste disposal will not have a negative impact on the local population or the environment. Compliance with the "Zero Waste Regulation" related to solid waste management is ensured.

6. REDUCING ENVIRONMENTAL IMPACTS

Being aware of the fact that the natural resources we use, the immediate environment and region we interact with, and the great family we have formed with our employees have a great impact on our corporate success and the experiences we give to our guests, we adopt a management approach to review our responsibilities at every stage.
